

31<sup>st</sup> Annual Production Sale

April 22, 2023

Noon Lunch - 1pm Sale

Dear Friends,

We would like to welcome everyone to our 31st Annual Production Sale. This year we are offering 44 yearling registered Angus bulls, and 34 yearling registered Angus heifers. We are proud to offer another great selection of cattle that we feel represent over 60 years in the Angus business. The lots offered are bred to meet the needs of seed stock producers, as well as the commercial cattlemen.

The nutrition of the mother cows during gestation is vitally important to the lifetime longevity and production potential of their offspring, as is how the calves are fed after weaning. Healthy and efficient momma cows raise better calves. These yearlings have been developed on oats, corn, sunflower byproduct and free choice grass hay since weaning. They are fed well, but not pushed or creep fed, EVER. These are not “butcher-ready bulls” with a half inch of back fat that will melt when you get them home. Fertility and longevity take a really hard hit on overfed cattle whether anyone wants to admit it or not. These bulls and heifers would be a great investment to any breeding program looking for the consistency and uniformity to hold up over time. We are strict about culling anything that comes up late or open, has poor feet, legs, udders, dispositions, phenotype or performance. Being selective and weeding off the bottom, raises the bottom line higher year after year.

Ranching in North Central Minnesota, we look for cattle that can stand up to the harsh conditions our weather throws at us. We also calve during March, when the weather can really fluctuate. Calving issues are something that we take a lot of pride in saying are rare. Cows are selected for maternal traits include being a good momma that will lay down, have her calf, that will be up and suck completely unassisted. Careful selection for those maternal traits really pays off in the end for everyone. We aren't babysitters, nor do we want to pass that on customers. Anyone can breed to high growth bulls and get just that. Maternal traits take along time to solidify and can be gone quickly with poor breeding choices.

We will again be having the sale broadcast online thru DVAuctions. All bulls and heifers will have videos online and we will also be offering a \$100 buyers incentive to those that make an appointment to come visit Dick or Juanita at the ranch between now and April 21. This will give everyone a chance to ask questions and look at the rest of the herd should they choose. If online auctions aren't your thing and you are unable to attend, as always, you can leave bids with the Auctioneer, Field Reps, Dick, or Juanita prior to the sale. We would love to help you with your selection process to find cattle to best fit your current needs and long term goals.

Please feel free to call, text or check the website/Facebook anytime for questions you many have. We will keep updated if or when things change.

Sincerely,

*Richard Wiese & Juanita Dice*

Dick Wiese (218)820-6451

Juanita Dice (218)820-3167

# PRODUCTION SALE

## Saturday, April 22, 2023

LUNCH 11-NOON SALE AT 1:00 P.M.

### SALE DAY PHONES:

Dick (218)820-6451  
Juanita (218)820-3167

### AUCTIONEER:

Roger Jacobs (406)698-7686

### FIELD REPRESENTATIVES

#### CATTLE BUSINESS WEEKLY:

Tony Heins (701)400-4435

#### FARM/RANCH GUIDE:

Kirby Goettsch (605)380-3939

#### AMERICAN ANGUS ASSOCIATION:

Rod Geppert (605)295-3673

### HOTELS:

AmericInn, Pequot Lakes (218)568-8400  
Nisswa Inn & Suites, Nisswa (218)963-3500

**SALE LOCATION:** WR RANCH is 18 miles north of Pillager **OR** 12 miles south of Pine River on Co. Rd. 1. Map and directions also on [www.WRBarRanch.com](http://www.WRBarRanch.com)

**TERMS & CONDITIONS:** Cattle will sell under the Terms and Conditions of the American Angus Association. Terms are cash. Those not physically present for the sale will be Invoiced Monday after the sale, payment due upon receipt. [http://www.angus.org/Pub/suggested\\_sale\\_terms.pdf](http://www.angus.org/Pub/suggested_sale_terms.pdf)

**HEALTH:** All cattle have been vaccinated for IBR, BVD, PI3, BRSV, Lepto 5, Vibro, 8-way Black Leg, Hemophilus and Pasturella. Cattle have been poured with Ivomec & CleanUp and are ready for interstate shipment. Vet will be on-site after the Sale for Health Certificates if necessary. Heifers are calthood vaccinated.

**ANNOUNCEMENTS:** Announcements from the auction block will take precedence over information listed in this sale book should there be any changes or errors.

**PERFORMANCE INFORMATION:** All bulls have been semen tested. Up-to-date EPDs, adjusted yearling weights and scrotal measurement data available sale day and online prior to sale.

**TRUCKING & DELIVERY:** Free delivery up to 200 miles. \$50 off per head if you haul your purchase home sale day. Arrangements may be made to board bulls until June 1.

**SEMEN INTEREST:** WR may retain semen interest on some bulls and this will be announced sale day.

**INSPECTION OF CATTLE:** Cattle are available for inspection at the farm ANYTIME prior to Sale Day. Call Dick or Juanita to make an Appointment.

**LIABILITY:** All persons who attend the sale do so at their own risk and WR will assume no liability, legal or otherwise, for any accidents that may occur.

### FIRST YEAR BULL GUARANTEES:

**Breeding-** All bulls are semen tested and examined to be sound breeders. If any bull fails to breed, and is reported by September 15 of purchase year, it may be returned in good condition and in compliance with Minnesota Health Regulations. Once the bull has been returned or vet checked and confirmed that he is a non-breeder, buyer may have choice of refund or future sale credit.

**Injury-** In the event that a bull sustains a disabling injury, notify WR immediately. There will be a \$2,000 deductible, buyer keeps salvage value of injured bull. Bulls must be checked by a vet. All claims must be made by September 15 of purchase year. This is not a mortality insurance policy, nor does it cover mismanagement or neglect. This does not cover injuries sustained prior to breeding season.

## ONLINE AUCTION INFORMATION

We will be behaving the sale just as we have in years past, in addition to offering the option to watch or bid online. We will also continue to receive phone bids. To watch and bid online, simply complete the following steps:

Go to [www.dvauction.com](http://www.dvauction.com).

Click [Create New Account](#).

Enter a username, password, & contact info.

Complete the banking info. (Only necessary if you will be bidding.)

Select your time zone, accept the terms, and click Create Account.

Complete the process by answering a few questions and setting up your subscription preferences.

Click [Apply for Bidding](#) and select **WR BAR RANCH on April 22, 2023**.

DVAuction will contact you once you have been approved to bid. They will not provide a buyer number until you have purchased a lot in the sale and that number is only usable for the **WR BAR Ranch Sale**.

### PLEASE NOTE

Include a personal contact at your bank, as they will be contacted as a credit reference. You can also be approved by your credit card, call DVAuction at (402)316-5460 to do so.

Applying at least a day in advance of the sale is greatly appreciated.

If you are not comfortable bidding online, contact Juanita or a Ringman to place your bids at least 1 hour in advance.

### PROXY BIDDING

Follow the instructions above and as the sale date nears, there will be a Proxy Bidding button underneath the sale name on the DVAuction website. You can then place your maximum bid and the system will represent your bid as if you were there.

### ONLINE PURCHASES & SETTLEMENT

All online buyers will be mailed an Invoice sent out immediately following Sale. Payment is due upon receipt.

***PLEASE SIGN UP TO BID A FEW DAYS IN ADVANCE!***

Having trouble? More instructions will also be available on  
**[www.WRBarRanch.com](http://www.WRBarRanch.com) or [www.DVAuctions.com](http://www.DVAuctions.com)**

## Interpreting Performance Data

**Expected Progeny Difference (EPD)**, is the prediction of how future progeny of each animal are expected to perform relative to the progeny of other animals listed in the database. EPDs are expressed in units of measure for the trait, plus or minus. Interim EPDs may appear on young animals when their performance has yet to be incorporated into the American Angus Association National Cattle Evaluation (NCE) procedures. This EPD will be preceded by an "I", and may or may not include the animal's own performance record for a particular trait, depending on its availability, appropriate contemporary grouping, or data edits needed for NCE.

**Calving Ease Direct (CED)**, is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

**Birth Weight EPD (BW)**, expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

**Weaning Weight EPD (WW)**, expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires.

**Yearling Weight EPD (YW)**, expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

**Calving Ease Maternal (CEM)**, is expressed as a difference in percentage of unassisted births with a higher value indicating greater calving ease in first-calf daughters. It predicts the average ease with which a sire's daughters will calve as first-calf heifers when compared to daughters of other sires.

**Maternal Milk EPD (Milk)**, is a predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters compared to daughters of other sires. In other words, it is that part of a calf's weaning weight attributed to milk and mothering ability.

**Cow Energy Value (\$EN)**, expressed in dollar savings per cow per year, assesses differences in cow energy requirements as an expected dollar savings difference in daughters of sires. A larger value is more favorable when comparing two animals (more dollars saved on feed energy expenses). Components for computing the cow \$EN savings difference include lactation energy requirements and energy costs associated with differences in mature cow size.

**Carcass Weight EPD (CW)**, expressed in pounds is a predictor of the differences in hot carcass weight of a sire's progeny compared to progeny of other sires.

**Marbling EPD (Marb)**, expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

**Ribeye Area EPD (RE)**, expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

**Fat Thickness EPD (Fat)**, expressed in inches, is a predictor of the differences in external fat thickness at the 12th rib (as measured between the 12th and 13th ribs) of a sire's progeny compared to progeny of other sires.

**Weaned Calf Value (\$W)**, an index value expressed in dollars per head, is the expected average difference in future progeny performance for preweaning merit. \$W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk and mature cow size.

**Feedlot Value (\$F)**, an index value expressed in dollars per head, is the expected average difference in future progeny performance for postweaning merit compared to progeny of other sires.

**Grid Value (\$G)**, an index value expressed in dollars per head, is the expected average difference in future progeny performance for carcass grid merit compared to progeny of other sires.

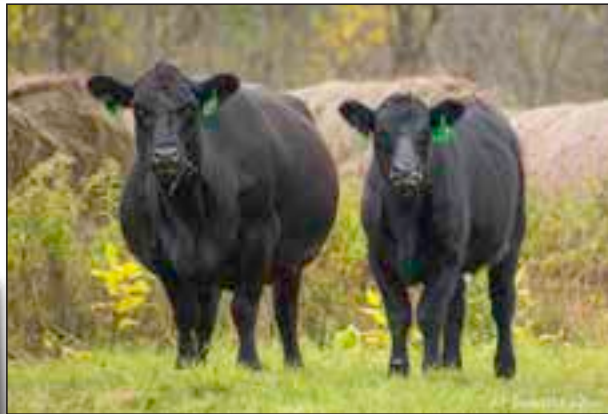

- **Quality Grade (\$QG)** \$QG represents the quality grade segment of the economic advantage found in \$G. \$QG is intended for the specialized user wanting to place more emphasis on improving quality grade. The carcass marbling (Marb) EPD contributes to \$QG.
- **Yield Grade (\$YG)** \$YG represents the yield grade segment of the economic advantage found in \$G. \$YG is intended for the specialized user wanting to place more emphasis on red meat yield. It provides a multi-trait approach to encompass ribeye, fat thickness and weight into an economic value for red meat yield.

**Beef Value (\$B)**, an index value expressed in dollars per head, is the expected average difference in future progeny performance for postweaning and carcass value compared to progeny of other sires.

### Current Breed Averages for EPD and \$Values
